

HG shine restoring tile cleaner
(shine cleaner) (HG product 17)

HG "shine restoring tile cleaner" (shine cleaner) is a freshly scented, concentrated mopping cleaner with shine restorer, especially developed for cleaning both porous and non-porous floor tiles, flagstones and non-calciferous natural stone. This product also enhances the colour and structure of the tiles.

1 litre is sufficient for 20 washes.

Directions:

For regular cleaning:

Dissolve 50 ml (half a cup) in half a bucket (5L) of lukewarm water. Then clean the floor with a wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

For intensive soiling or to remove the gloss coating of this product:

See the HG floor tile treating matrix on the side of this bottle.
